CONTENTS

No. 1, January 1947

A Rapid Staining Method for the Microscopical Examination of Milk—A Preliminary Note. Donald B. Shutt 1
A New Cytological Technic, Tannin-Iron III, for Nucleoli and Plastids. M. C. de Rezende-Pinto 3
Quick Staining Method for Frozen Sections. W. V. Cole 5
Histochemical Localization of Acid Phosphatase in Germinating Maize Kernels. Otto E. Kugler and Edmund H. Bennett 9
The Acetocarmine Smear Technic. Luther Smith 17
Laboratory Hints from the Literature
- Book Review 33
- Microscope and Other Apparatus 33
- Microtechnic in General 34
- Dyes and Their Biological Uses 35
- Animal Microtechnic 36
- Plant Microtechnic 38
- Microörganisms 38
- Histochemistry 39

No. 2, April 1947

The Stainability of Nerve Fibers by Protargol with Various Fixatives and Staining Technics. H. A. Davenport, Robert W. Porter and Robert W. Thomas 41
The Action of Ribonuclease on Fixed Tissues. Robert E. Stowell and Anita Zorzoli 51
A Confirmation of Rafalko's Feulgen Method. Ray Moree 63
Malt Diastase and Ptyalin in place of Saliva in the Identification of Glycogen. R. D. Lillie and J. Greco 67
Paraffin Sections of Tissue Fragments. J. P. O'Brien 71
Bismarck Brown as a Stain for Mucoproteins. E. H. Leach 73
Laboratory Hints from the Literature
- Miscroscope and Other Apparatus 77
- Microtechnic in General 77
- Animal Microtechnic 78
- Plant Microtechnic 79
- Microörganisms 80
- Histochemistry 80

No. 3, July 1947

Progress in the Standardization of Stains. A New Location for the Chemical Work. Grants for Research Work. H. J. Conn 81
Differential Cytophysiological Diagnosis of Cancerous and Normal Tissues. G. I. Roskin and M. E. Struve 83
Some Synthetic Resins in Combined Fixing, Staining and Mounting Media. Conway Zirkle 87
Elimination of Distortion and Poor Staining in Paraffin Sections of Plant Tissues. T. E. Rawlins and William N. Takahashi 99
Gallocyanin as a Nuclear Stain. W. V. Cole 103
Staining of Embryonic and Small Mammalian Skeletal Systems. Robert M. True 107
Simplified Permanent Aceto-Carmine Smears with a Water-Miscible Mountant. Robert K. Zuck 109
Staining Nerve Fibers with Methylene Blue. An Evaluation of Variables Used in an Immersion Technic. Richard E. Heller, Robert W. Thomas, and H. A. Davenport 111
Laboratory Hints from the Literature
- Microscope and Other Apparatus 119
- Microtechnic in General 119
- Dyes and Their Biological Uses 120
- Animal Microtechnic 120

Plant Microtechnic 124
Microörganisms 125
Histochemistry 126

No. 4, October 1947

Improvements in the Paraffin Method. Adriance S. Foster and Ernest M. Gifford, Jr 129
The Stability of So-Called Axonal Acid Phosphatase as Determined by Experiments in its "Stainability". A. M. Lassek 133
Differential Staining of Tissue in the Block with Picric Acid and the Feulgen Reaction. John F. Lhotka and H. A. Davenport 139
Some Oil Soluble Dyes which Stain Suberized Deposits in Orange Vesicles. Gladys S. King 145
Phloxine as an Histologic Stain, Especially in Combination with Hematoxylin. Robert Rosenbaum 149
Chlorazol Paper Brown B as a Stain for Plant Tissues. Bernard Verdcourt 155
A Simple Method for Squashing and Mounting Preparations after any Stain. J. A. Serra 157
Laboratory Hints from the Literature
Microscope and Other Apparatus 161
Microtechnic in General 161
Dyes and Their Biological Uses 161
Animal Microtechnic 162
Microörganisms 162
Index to Volume 22 165
